

Dear Parent:

When you take time to consider the needs of your family, and especially your children, there sure is a lot to think about. It can be overwhelming at times. You must consider factors which will affect your children's health and safety, their education, the kind of friends they have. Which of these issues is most important to you? What about their spiritual development? If you think about it carefully, you may find yourself agreeing with me in that spiritual development is of the greatest importance when considering the future of our children.

So how can a parent foster and protect the spiritual development of their child? There are many things which can contribute to positive spiritual growth in our children, but let me suggest that Christian Education can play a significant role in creating and maintaining this vital process of spiritual development. Christian Education provides a learning environment where the Biblical truths and principles taught in the home are reinforced and modeled on a daily basis, thereby maintaining a positive spiritual continuity between home and school. The home and the school work as partners with the same objectives.

We at London Christian Academy are committed to providing this type of learning environment for the children enrolled in our school. This forms the base or foundation upon which we exist. The rest of our program is built upon this and we are equally committed to excellence in all other aspects of our program. All of our teachers are qualified professionals and committed Christians. Our educational program meets all the academic requirements of the Ministry of Education and our results on national standardized tests administered to all students in grades three through eight show our classes to be performing well above the national average. We are proud of our diverse extracurricular program, which includes both intramural and team sports, vocal and instrumental music, drama and a variety of other fine arts opportunities. We support students with special needs through our resource program and access to a variety of professional service providers. For the international students we offer ELD (English Literacy Development) classes. We have full functioning computer and science labs available to our classes and we provide a before and after school program to assist families with scheduling conflicts. We are highly committed to providing a safe and nurturing learning environment, but the greatest distinction we have is our commitment to a fully integrated Christian curriculum delivered by qualified Christian teachers.

So, what investments are you making towards your children's future? Have you stopped to consider the value of Christian Education? I would be more than happy to connect with you further about the possibility of Christian education for your children and the eternal benefits which can be achieved through an investment of this nature. Please contact the school and we will gladly send you our International Student Enrollment package for your consideration. Enrolling your child in Christian Education may be the greatest investment you will ever make.

Ron Hesman, Principal
London Christian Academy
